DOIMAN

BECOME A KEY PLAYER

DoiMan is Val di Sole's project dedicated to those who wish to experience our valley in a conscious, sustainable, and kind way.

It's an **impact pact**, that was born out of a desire to create a deeper connection between the land, its people, and its visitors. A collective journey in which local stakeholders, who are already involved, provide authentic experiences that respect our Planet.

Now it's your turn!

Experiencing Val di Sole with kindness means observing, respecting, and making more mindful choices. Every action you take can be a valuable contribution to preserving this unique ecosystem.

But that's not all! With DoiMan, you can protect nature while having fun: on the **DKind app** you'll find quizzes, sustainable actions to complete, and WOW Experiences. With each mission, you'll **earn points** that can then be used to **win prizes** while also increasing your sustainability awareness.

"Open for Kindness" isn't just our motto - it's an invitation.

To be inspired. To take action. To experience Val di Sole with open eyes and a conscious heart.

Are you ready to start this journey with us towards a more sustainable future?

TOURIST

EMBRACE

In Val di Sole, we want every visitor to feel part of a vision, not just a passerby. Embrace our values and experience Val di Sole with awareness and respect for the land.

SLOW DOWN

Val di Sole is even more beautiful when explored slowly. Plan your days at a different pace, let yourself be surprised as you travel in harmony with nature - on foot or by bike - and take advantage of trains and buses to rethink a car-free holiday.

RESPECT

Nearly 50% of Val di Sole's land is a protected area. Respect nature - leave no trace. The valley's name comes from Sulis, the Celtic goddess of water. Use water wisely - it's a precious resource.

LEARN

Your choices help preserve our traditions. Support us by choosing authentic local food and small-scale artisans who lovingly keep our identity alive.

CHOOSE

Val di Sole welcomes guests with generosity and hospitality. It's easy to become part of the valley's harmony: choose experiences that encourage cultural exchange, foster a connection with nature and help to care for the land.

OPERATOR

INCLUDE

Through our change program, we aim to empower our guests to make a meaningful contribution to the well-being of our territory by positively influencing its environmental, social, economic, and cultural dimensions.

INFORM

Val di Sole aims to become a natural-movement zone with sustainable mobility. You can make a difference by encouraging your guests and collaborators to use public transportation and by creating experiences that focus on means of sustainable mobility.

RECYCLE

Pejo has been declared the world's first plastic-free ski area. Let's uphold our commitment to sustainability by eliminating plastic in our businesses and encouraging tourists to reduce single-use materials.

PROTECT

Preserve what makes Val di Sole unique: celebrate our roots by choosing local products and encouraging guests to buy from regional producers, and connect them to our rural identity with authentic activities and places.

WELCOME

Our community welcomes all visitors. Let's be inclusive - ensure the destination is accessible to everyone, encourage tourists to be kind and respectful, and use clear, accessible local information materials.
